

Start with a full sheet of paper.

Fold top edge to bottom edge.

Unfold and then find the halfway point on each side (make a small crease).

Fold both corners in to the halfway point as shown.

Fold to the center as shown, leaving about a 1/4 inch gap between the new fold and the center at the lower end.

Reverse fold down the center and fold the other wing to match the first.

Open and fold the tip back to a line between the two tips.

Fold to the center as shown, leaving about a 1/4 inch gap between the new fold and the center at the lower end.

Fold in the center and do the other wing.

Open and fold tip to the center (inside center) as shown.

Fold in both wings again. Still leaving the gap as shown in the next frame.

Should look like this.

Fold the wing edge to the center. Repeat on the other side.

Fold the wing edge back out to the outer edge. Repeat on the other side.

Turn the plane over and fold the edge back to the center.

Repeat on the other side.

Unfold and check the wing positions.

You are ready to fly!
